

# Hand Hygiene Compliance

## Hospital (11-25 beds)

Interior Health's Compliance Rate Goal Is 80%

|                                    | Current Quarter               | Previous Quarter             | Change   |
|------------------------------------|-------------------------------|------------------------------|----------|
|                                    | Oct 01, 2023-<br>Dec 31, 2023 | Jul 01, 2023-Sep<br>30, 2023 |          |
| 100 Mile District General Hospital | 79%                           | 75%                          | ↑        |
| Boundary District Hospital         | 73%                           | N/A                          |          |
| Creston Valley Hospital            | 78%                           | 75%                          | ↑        |
| Elk Valley Hospital                | N/A                           | 80%                          |          |
| South Okanagan General Hospital    | 82%                           | 78%                          | ↑        |
| <b>Interior Health*</b>            | <b>73%</b>                    | <b>72%</b>                   | <b>↑</b> |

Total number of observations this quarter in the above Facilities was 231

Hand hygiene rates are based on observations of staff practicing hand hygiene before or after patient care, as seen by auditors. Comparisons between facilities are not advised as they may differ in their size, patient characteristics, and services they provide. NA indicates data not available, or insufficient number of observations to report a rate. Hand hygiene compliance rates include all health-care provider disciplines. For more information on our hand hygiene audits, please visit: <https://www.interiorhealth.ca/about-ih/quality-care#audit-results>
