

2009/10 Combined H1N1/Seasonal Immunization Clinics

Eligibility - With the exception of infants less than 6 months, anyone who wants or needs an H1N1 vaccination is now eligible.

Attention Pregnant Women

Unadjuvanted H1N1 vaccine is now available at public flu clinics. Some vaccine stock is also being provided to physicians providing prenatal and obstetrical care.

Kids and H1N1 Vaccine: [See Dosing Recommendations](#)

- For children 3 years and older, one dose of H1N1 vaccine is sufficient.
- Children under 3 still require two half doses, at least 21 days apart.
- Children with chronic medical conditions require two half doses, at least 21 days apart.
- People that are bringing children that are not their own to clinics need to have a signed letter of consent from the parent plus their care card and birthdate.

Flu clinics are contingent on receiving expected shipment of vaccine and are subject to change on short notice.

City / Town	Location Name	Days Open	Street Address	Clinic Date	Start Time	End Time

Williams Lake	Cariboo Bethel Church - Basement	Friday	833 Western Avenue	27-Nov-09	1:00 PM	7:00 PM

All clinic times, dates and locations will be posted here once they are booked and may be subject to change.

Please note that as some clinics have been combined, some previously advertised clinics may have changed.

If you do not see a clinic for your community, please check back as staff are in the process of confirming bookings this week.
