Submitting Claims for Workplace Violence Prevention Training

You will submit your claim for Workplace Violence Prevention Training through the new on-line physician invoicing portal, **PIP**. The new on-line claim and invoicing system will make it easier for you to submit and track your claims, as well as view adjustments.

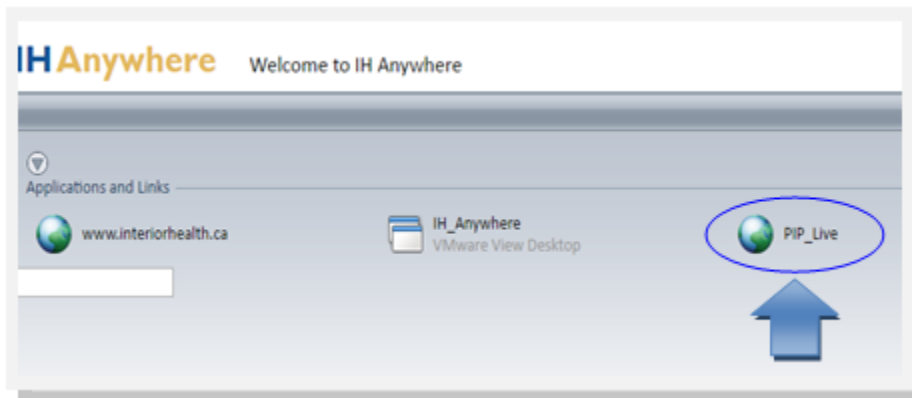

In the next few days, you will receive an email notification to your preferred email address advising that a claim has been set up for you.

Instruction guides on how to log into PIP and how to submit a claim are available as well as weekly scheduled WebEx training sessions. Guides and WebEx schedules are available here:
