

## Connecting MOST, ACP and Goals of Care

### Conversations about:

- Written expression of wishes
- Advance Directives
- Representation Agreements

The adult engages in ACP conversations with loved ones and health care providers.

### Conversations about:

- Clarification or review of ACP
- Diagnosis, prognosis, risks, and benefits of treatment
- Medically appropriate options for health care that aligns with the adult's goals of care

The adult engages in Goals of Care conversations with loved ones and health care providers.

### Conversations:

- Between the adult, Most Responsible Physician and other health care providers about the kinds of health care to provide in certain circumstances

The Most Responsible Physician completes a MOST.
