

## Course: Introduction to Emergency Response and Contingency Planning

---

Preparing an Emergency Response and Contingency Plan (ERCP) is an essential part of managing a drinking water system. A plan will help you respond to and recover from emergencies in a timely manner.

The course will cover:

- What an ERCP is and why it is necessary
- Types of drinking water emergencies
- Important components of the ERCP
- Public notifications and advisories to use
- Response actions to possible emergency events (scenario activity).
- How to review and update your existing ERCP

There will be a quiz and an assessment at the end of the session

**EOCP Certified Operators are eligible for 0.3 credits**

**Course Cost: Free**

**Please contact your local Drinking Water Officer or  
Environmental Health Officer for details.**
