

AUTHORIZED PERSON SUBMISSION CHECKLIST

This checklist has been developed for each part of the process to ensure that your submission meets Interior Health requirements. Should you have any questions or require clarification about the Sewerage System Regulation filing process, please contact us at HBE@interiorhealth.ca.

INITIAL FILING CHECKLIST REQUIREMENTS

- Record of Sewerage System (RSS) – all application fields must be completed in full and correctly (shown as **Owners and Sewage System** tab in registry and known as the RSS Form for counter or HBE email submissions).
- Correct Folio / Assessment Roll Number verified with a BC Tax assessment or similar legal document that proves the tax assessment roll number, civic address, property identification # (PID), and legal description for the sewerage system. These must be uploaded under the respective tabs: **BC Tax Assessment** or **Land Title** drop down heading in the registry.
- Approved Person or Engineer seal and signature on all supporting documents submitted to the registry. RSS Form emailed to HBE does not need to be signed/stamped.
- Proposed drawings / site plan / record of design scaled or with measurements that outline where the system will go. Must be stamped and initialled by the AP.
- Soil assessment and perc / test pit information. Must be stamped and initialled by the AP.
- System Specifications that describe system detail (e.g. DDF / design rationale). Must be stamped and initialled by the AP.
- Conflicts (restrictive covenants, easements or health order); if yes is checked, provide documentation.
- A ROWP with PL credentials, or a professional Engineer in good standing with their governing body, to submit filings.
- Registry submissions must have documents uploaded under the correct corresponding heading, as outlined in the AP User Guide. Filing packages can be uploaded as one report under the **RSS Other Supporting Documentation** heading without the BC Assessment or Land Title document included; those two documents must go under their corresponding headings.

LETTER OF CERTIFICATION MINIMUM SUBMISSION REQUIREMENTS

- Letter of Certification filed within two years of initial filing date and/or within 30 days of construction. Must be stamped and initialled by the original AP.
- As-Built drawings / site plan / record of design that shows the details of where the sewerage system is located on the property, and where it is attached to the dwelling, with measurements or a scale. Must be stamped and initialled by the original AP.
- Maintenance Plan for the running of the sewerage system, e.g. dos/don'ts and scheduled maintenance details. Must be stamped and initialled by the original AP.
- If not the Planner who installed the system, provide the Installer's name.
- Registry submissions must have the As Built drawings / specifications uploaded under the LOC Other Supporting Documentation heading and the Maintenance Plan under its corresponding heading.

RECORD OF SEWERAGE AMENDMENTS MINIMUM SUBMISSION REQUIREMENTS

- **Reasons for filing an Amendment:**
 - Any significant changes to the plans or specifications, per SPM (sec III-3.6.1 **Significant Changes to Design During Installation**)
- **Documents to be submitted:**
 - Revised RSS Submission, where applicable
 - Any additional documentation, stamped & initialled by the original AP
- **Registry amendments – comment must be added specifying the reason for the amendment**

NOTE: Incomplete submissions that do not meet these standards will be returned for revision before being accepted by Interior Health. Please ensure that all documents and reports are stamped / sealed and initialled by the Authorized Person.
