

Resources for Healthy Neighbourhood Design

Resource Documents for Any Sized Community:

<u>Healthy Neighbourhood Design</u>	Basic information about how a neighbourhood is designed can improve health and well-being by Plan h.
<u>Healthy Built Environment Linkages Toolkit</u>	Key HBE factors that influence health with reliable summary of health evidence by Provincial Health Services Authority. See pages 10 to 19 for Neighbourhood Design.
<u>Fact Sheet 2: Active Living, Children & Youth</u>	Planning Healthy Communities Fact sheet about community design features which are associated with child and youth health outcomes by Canadian Institute of Planners.
<u>Design Principles - Connectivity</u>	Healthy Spaces & Places webpage about the directness and density of connections in a transport network.
<u>Designing Healthy Living</u>	Report that raises awareness about how the built environment provides a foundation for healthy living; how people's behaviour is essential when designing communities to improve health.
<u>Neighbourhood Design, Travel and Health in Metro Vancouver: Using a Walkability Index</u>	Introduction to the Metro Vancouver Walkability Index that was developed at the UBC to measure neighbourhood urban form characteristics in Metro Vancouver.
