Re: Pedestrian Walkway to Peterson Creek

In an effort to enhance safety for staff walking to and from the Peterson Creek parking lot, I'm happy to report that a safe pathway for pedestrians will be created along this stretch of road.

The work will take place between **Dec. 10, 2018 and January 4, 2019.**

A pedestrian cross-walk will be added near the top of the road (see image). A combination of concrete barricades and a gravel pathway will form the pedestrian walkway to Peterson Creek. Snow removal along the walkway will be done on a regular basis.
