Care-Giver Assessment Tool

**Introduction:** This caregiver assessment is intended to be used following an initial positive screen of caregiver burden or depression. The tool gathers key information from the caregiver's perspective about their role, the care needs of the care recipient and how they meet these needs, aspects of their own health, the consequences of care-giving, and their perception of the resources available to them. It is estimated to take approximately 30 minutes or less to complete.

The information in this assessment is not intended to duplicate information within the client assessment – although client care information is linked, it is vital that the information captured approaches issues from the caregiver's perspective. Information from this tool is critical to accurately identify caregiver needs and to mutually develop a specific plan of care. If a comprehensive assessment of caregiver knowledge, skills and abilities for caregiving is required, it is suggested clinicians refer to the Care-giving Discussion Guide.

**Instruction:** Complete this assessment in consultation with the care-giver in a private environment.

Care-giver’s Name: __________________________________________________________

Care Receiver’s Name: _______________________________________________________

Clinician’s Name: __________________________________________________________

Date(s) of Interview: ______________________________________________________

**Domain #1: Background of the Caregiver and the Care-giving Situation**

Briefly describe the following background caregiver characteristics:

1) Caregiver relationship to care recipient:
   a) Relationship to person you care for:_________________________________________
   b) How long have you been providing care?____________________________________

2) Household Status:
   a) Do you live in same household with the person you care for? □Yes □No
   b) Are you married? □Yes □No
   c) Do you have children? □ No □ Yes: Ages: □ <18 yrs □ >19 yrs
   d) Where do your adult children live and how frequently in contact?

   ________________________________________________________________

3) Other involvements in care:
   a) Are other family members or friends regularly involved in providing care? □Yes □ No
   b) Do you have other care-giving responsibilities? (children, other adults)

   ________________________________________________________________
   c) Are you currently employed? □ No □ Yes: Fulltime □ Part-time □

Notes:
Domain #2: Caregiver’s Perception of Health and Functional Needs of the Person They Care For

1) “I would like to ask you some questions about <CR>’s health conditions and how that might affect his/her need for help or care. Can you tell me if <CR> has any…” (use quotes where possible)
   a. Physical health diagnoses or problems? ☐ Yes ☐ No
      Describe:
   b. Mental health or emotional problems? ☐ Yes ☐ No
      Describe:
   c. Memory loss or cognitive impairment? ☐ Yes ☐ No
      Describe:
   d. Concerns about behavioural responses? ☐ Yes ☐ No
      Describe:
      • How frequently do they occur? ________________________________________________
      • Do the behaviours bother or upset you? __________________________________________

</tbody>
</table>
**Perceived benefits of care-giving**

1) Do you feel satisfaction in helping ________________ (<<CR>> name of the care recipient)?

2) Do you feel you have developed new skills and knowledge as a result of care-giving? (identify and describe)

3) Has your caregiving had a positive effect on your relationship with <<CR>>? Describe__________________________?

4) Has there been an improvement in family relationships (general closeness, communication, similarity of views, and degree of getting along) as a result of this care-giving situation?

5) **Comments**: Yes | No | N/A

---

**Domain #6: Caregiver Resources: Helping network and perceived social supports**

Ask the caregiver their perception of his/her resources: Describe the details:

1. Who helps you?
   - What help do they provide?
   - When are they available? (under what conditions?)
   - Where can they provide care? (in-home, other?)
   - Can you rely on their help consistently or only occasionally?
   - Are they available to provide respite (relief) when you are unable to provide care? □ Yes □ No
   - If yes, is their assistance available on short notice?
   - Do you have a plan in place in case of crisis?
   - What will happen to <CR>, if you are unable to provide care?

2. Which community resources and services have you tried? (caregiver support programs, religious organizations, volunteer agencies)
   List:
   - Which resources/services are currently being used?
   - What worked, what didn’t?
   - What are you aware of, but haven’t tried? Why?
3. Do you desire added support or services? □ Yes □ No
   • Can you describe what priorities you would like to have some added help with?
   • Who in your support network might be able to provide that for you?
   • What resources do you think could be organized to assist you?
   • What are the caregiver’s (and the care recipient’s) preferences for the scheduling and delivery of care and services? (Describe details)
