Penticton Regional Hospital — Traffic and Pedestrian Advisory

PENTICTON – Due to construction work on the David E. Kampe Tower at Penticton Regional Hospital, vehicle and pedestrian traffic may experience delays between **May 29 to June 6**. Please see the [map](#) below for more detail.

During these times Industrial Avenue will go to a single lane of alternating traffic and the pedestrian crosswalk on Industrial Avenue will be moved to a new location on the east side of Ellis Creek Bridge. To help individuals find their way, signage and flaggers will be in place to direct traffic and pedestrians.

Motorists are advised to plan for delays on Industrial Avenue when visiting the hospital. Please use caution and slow down for pedestrians, obey traffic signs and yield to flag people and security personnel.

Interior Health would like to thank all patients, members of the public and staff for their continued patience as we work to build patient care at Penticton Regional Hospital.

For more information on the Patient Care Tower Project, please visit the Building Patient Care [website](#).
