**HEALTH
SERVICES
FOR
COMMUNITY
LIVING
(Dental Program)**

A community based program to assist adults with developmental disabilities who need help to prevent or resolve oral health problems

Services are available to adults 19 years or older diagnosed with developmental disability who are eligible for service from Community Living BC.

Dental staff help adults living independently or in supported homes to achieve good oral health.

Staff will help families, care givers, and other health professionals to ensure these individuals' dental needs are addressed.

Program services include:

- oral health assessments
- consultation and support
- daily oral hygiene instruction
- liaison and referral
- community advocacy
