

## Standardized Mini-Mental State Examination (SMMSE)

### Directions for administration of the SSMSE:

1. Before the questionnaire is administered, try to get the person to sit down facing you. Assess the person's ability to hear and understand very simple conversation, e.g. *What is your name?* If the person uses hearing or visual aids, provide these before starting.
2. Introduce yourself and try to get the person's confidence. Before you begin, get the person's permission to ask questions, e.g. *Would it be alright to ask you the same questions about your memory?* This helps to avoid catastrophic reactions.
3. Ask each question a maximum of three times. If the subject does not respond, score 0.
4. If the person answers incorrectly, score 0. Accept that answer and do not ask the question again, hint, or provide any physical clues such as head shaking, etc.
5. The following equipment is required to administer the instrument: A watch, a pencil, Page 2 of this SMMSE with CLOSE YOUR EYES written in large letters and two five-sided figures intersecting to make a four-sided figure and a blank piece of paper.
6. If the person answers: *What did you say?*, do not explain or engage in conversation. Merely repeat the same directions a maximum of three times.
7. If the person interrupts (e.g. *What is this for?*), reply, *I will explain in a few minutes, when we are finished. Now if we could proceed please . . . we are almost finished.*
8. It is important to score the test as fairly as possible for everyone. People who have physical, non-cognitive disabilities should not score lower just because they are physically unable to perform certain tasks (E.g.. amputee who cannot fold with both hands). If an item is omitted, it is important to take this into account when scoring the test. The score from this task is subtracted from the total score (30) to give a new total.

The person's score is then adjusted to this new total score.

Formula for New Total Score =  
 $(\text{Actual score} \times 30) / \text{adjusted total}$

### Scoring WORLD backwards (instructions for item #4)

Write the person's response below the correct response.

Draw lines matching the same letters in the correct response and the response given.

These lines MUST NOT cross each other. Draw only one line per letter.

The person's score is the maximum number of lines that can be drawn without crossing any.

Examples:

D	L	R	O	W
D	L	R	O	W

= Score 5

D	L	R	O	W
D	R	W	O	D

= Score 3

D	L	R	O	W
L	O	W	R	O

= Score 3

D	L	R	O	W
L				

= Score 1

D	L	R	O	W
L	R	R	W	O

= Score 3

D	L	R	O	W

= Score 0
