

Dishwashing Requires 4 Steps

1. Wash

Wash in clean hot water and detergent

2. Rinse

Rinse in clean hot water

3. Sanitize

Submerge dishes in clean water with a chemical sanitizing solution for at least 10 seconds (100 ppm bleach solution) or 30 seconds (200 ppm QUAT solution) in accordance with manufacturer's instructions.

4. Dry

Drain and air dry on a clean, nonabsorbent surface
