Re: 2024 Interior Health Antibigram

The 2024 Interior Health Antibigram is now available and incorporates susceptibility data from the community, long-term care and acute care facilities.

The antibiogram is available on insideNet, on both the pharmacy and laboratory pages as well as on the Laboratory website:

- [insideNet \(Pharmacy\)](#): Clinical Resources→ Pharmacy→ Antimicrobial Stewardship→ IH Antibigram
- [insideNet \(Laboratory\)](#): Clinical Resources→ Laboratory & POCT→ Microbiology Resources→ Antibigram
- Microbiology laboratory public website: www.interiorhealth.ca/microbiology→ Antimicrobial Susceptibility Patterns

Important Information

- The antibiogram includes information on antibiotic dosing and daily costs
- Antibiotics with more than 80% bioavailability are denoted with double asterisks
 - these antibiotics should be prescribed by the oral route whenever possible
