

GREENSLEEVE GUIDE: INDIVIDUALS & FAMILIES

WHAT DO I DO WITH A GREENSLEEVE?

WHAT IS A GREENSLEEVE?

A Greensleeve is a plastic folder that holds important documents regarding your health care wishes. It may contain your Advance Care Plan, MOST (medical orders for scope of treatment), EDITH, medication list, Representation Agreement, Advance Directive, and other health related forms.

WHO SHOULD HAVE A GREENSLEEVE?

A Greensleeve can be used by anyone in primary, community, acute or long-term care and is particularly beneficial for people living with a chronic health care condition or advancing illness who may need emergency medical care.

The Greensleeve is best kept on or near your fridge.

Paramedics are trained to first look there for any advance care documents.

The Greensleeve should be taken with you to all clinic and hospital visits but remember to bring it home again!

ASK YOUR HEALTH PROVIDER FOR A GREENSLEEVE OR EMAIL
