

Be the Change: Become a Hand Hygiene Peer Reviewer!

MAKE A DIFFERENCE IN PATIENT AND STAFF SAFETY

YOUR EXPERTISE MATTERS

Your knowledge is vital in maintaining high patient safety standards. As a peer reviewer, you help create a safer healthcare environment at Interior Health (IH).

REDUCE INFECTIONS, IMPROVE OUTCOMES

Hand hygiene is a powerful tool in preventing healthcare-associated infections (HAIs). Up to 12,000 patients acquire HAIs annually. Your efforts protect both patients and colleagues from communicable diseases.

FOSTER COLLABORATION & COMMUNICATION

Engage with fellow healthcare professionals, share best practices, and contribute to continuous hand hygiene improvement at your site and across IH.

GROW PROFESSIONALLY

Gain valuable skills in infection prevention through high-quality training and ongoing support from the IPAC Program.

BE A LEADER

Set an example in your workplace by championing best practices and inspiring a culture of excellence in patient safety.

RECOGNITION & APPRECIATION

Your role as a peer reviewer will be acknowledged by leadership and colleagues, showcasing your commitment to quality patient care.

DRIVE CONTINUOUS IMPROVEMENT

Hand hygiene tracking is an ongoing process. As a peer reviewer, you contribute to implementing evidence-based practices for a safer environment.

JOIN A TEAM COMMITTED TO SAFETY

Together, we form a united front against healthcare-associated infections—because every clean hand counts!

YOUR ROLE

- ◆ **OBSERVE** hand hygiene practice for the 4 moments
- ◆ **COLLECT** data using paper or online methods
- ◆ **COMPILE** hand hygiene compliance reports using available tech!
- ◆ **COLLABORATE** on quality improvement initiatives

SIGN UP WITH YOUR MANAGER TO BE A HAND HYGIENE CHAMPION!

OPEN TO ALL HEALTHCARE WORKERS, PHYSICIANS & VOLUNTEERS!
