CLERK

Turn over the page to learn more about our careers

**Physicians** are trained to keep people healthy and to help patients when they are sick or injured.

**Nurses** work with physicians and other health care professionals to care for patients when they are sick or injured.

**Nursing Unit Clerks** work in the hospital and help each medical unit run smoothly.

**Support Services** people work in all health care facilities as cleaners and food services staff.

**Patient Porters** assist and transport patients, their belongings, and more to and from different locations in the hospital.

**Medical Lab Assistants** take blood and other samples from patients and perform routine lab tests.

**Health Care Assistants** provide support to clients with activities of daily living such as getting dressed, bathing and enjoying a meal.

**Medical Imaging** professionals use technology to take images inside patients' bodies so physicians can see what is causing illness or injury - like getting an x-ray of a broken bone.

**Volunteers** complement the care provided by our professionals and are important members of the Interior Health Care Team.
