

Maternity and Pediatric Care Visitor Restrictions

COVID-19 Vaccination Requirements

All visitors must be fully vaccinated. Support persons/primary caregivers are strongly encouraged to be fully vaccinated but it is not required.

Maternity Inpatient (Labour & Delivery)

- Two consistent support persons
- A doula who is fully vaccinated may also be present
- One support person for a surgical delivery (C-section)

Maternity Inpatient (Post-Partum)

- Two consistent support persons
- A doula who is fully vaccinated may also be present
- Siblings may also visit

Neonatal Nursery

- Two consistent primary caregivers only

Pediatric Inpatient

- Two visitors (including primary caregivers)
- Siblings may also visit

Additional Visitor Requests

In consultation with families/patients, the care team will consider requests for additional visitors on a case-by-case basis to meet spiritual, cultural and other needs for the patient's well-being. Social Workers and Aboriginal Patient Navigators are available to support patients and families.
