Look for quick, at-a-glance Practice Tips in this section to support your learning.

MORE INFO

Look for more detailed information on related practice standards and clinical guidance in this section.

RESOURCES

Look for links to related resources to support your application to practice.

PALLIATIVE CARE CLINICAL PRACTICE BULLETINS

The Regional Palliative Care and End of Life Services Team is pleased to introduce a series of Clinical Practice Bulletins to enhance palliative knowledge and the integration of evidence-informed tools and processes into clinical practice.

Each Clinical Practice Bulletin will focus on a specific palliative topic and offer a brief description, relevant Practice Tips, and links to identified Resources.

Watch for the first issue in early May!
