

Hand Hygiene Compliance

Swan Valley Lodge

Interior Health's Compliance Rate Goal Is 80%

Total number of observations this quarter at Swan Valley Lodge was 224

Hand hygiene rates are based on observations of staff practicing hand hygiene before or after patient care, as seen by auditors. Comparisons between facilities are not advised as they may differ in their size, patient characteristics, and services they provide. NA indicates data not available, or insufficient number of observations to report a rate. Hand hygiene compliance rates include all health-care provider disciplines.
