

YOUTH HARM REDUCTION: A TOOLKIT FOR SERVICE PROVIDERS

Harm reduction is an umbrella term for programs, policies and practices that aim to reduce the negative consequences associated with behaviors that are typically considered high risk. It is also "a way of being" or an approach to providing care and support that is based in respect, compassion and inclusion.

A harm reduction approach can be used to support youth with a variety of topics. This toolkit focuses primarily on substance use.

This toolkit was designed to help youth service providers find credible harm reduction information, resources and tools to support them in the important work they do.

We hope you find the resources helpful. We hope to add to it as new resources are developed or discovered, so check back often. Please reach out to us if you have any questions, if you find broken links or have suggestions on things to add.

Thank you for all you do to support youth in your community!

Interior Health's Youth Harm Reduction Team :)

FIND HARM REDUCTION SERVICES IN COMMUNITY

[Toward the Heart - Site finder](#): Use this handy tool to find out where you can get naloxone and harm reduction supplies in your community.

[Drugchecking.ca -Interior Health](#): Find drug checking services in your community. Read drug alerts, learn about drug checking and more.

[Supervised Consumption and Overdose Prevention Services - Locations](#): Find Interior Health's supervised consumption and overdose prevention sites.

LEGISLATION AND POLICIES

[FAQ - Providing Harm Reduction Services to Youth - Legal](#)

[Considerations - Interior Health](#): Interior Health document addresses common questions regarding consent requirements and duty to report a child in need of protection when youth are accessing harm reduction services. Provides practice recommendations for delivering youth harm reduction services.

[Infants Act](#): British Columbia legal document - Section 17(1) outlines a youth's legal ability to consent to health care services.

[Duty to Report: BC Ministry of Child and Family Development](#): Provides information on what service providers must to report under the Child, Family and Community Service Act as well as how to report.

[Naloxone and Duty to Report - BC Centre for Disease Control](#): This information sheet addresses concerns about whether or not a service provider's has a duty to report when providing naloxone kits to people when there is a known minor in the house.

[Good Samaritan Act](#): Information and a poster on the Good Samaritan Drug Overdose Act which provides some legal protection for individuals who seek emergency help during an overdose.

[AL0200 - Consent for Person's Under 19 years of age](#): Interior Health staff access only. Interior Health policy to ensure consent for persons under 19 years of age is congruent with provincial legislation, regulations and standards of professional practice.

[Advocacy - Representative for Children and Youth](#): Provincial advocate for children and youth receiving reviewable services or programs provided or funded by government.

GUIDING DOCUMENTS

[BC Harm Reduction Strategies and Services Policy and Guidelines - BC](#)

[Centre for Disease Control](#): Provincial guidelines to support harm reduction strategies and services pertaining to substance use and sexual health. See Appendix 3 for guidelines for providing harm reduction services to youth.

[Treatment of Opioid Use Disorder for Youth - Guideline Supplement](#)

[BC Centre for Substance Use](#): This document is intended to supplement the BCCSU's A Guideline for the Clinical Management of Opioid Use Disorder with an overview of care principles and recommended treatment options for youth with an opioid use disorder (OUD).

[What makes mental health and substance use services youth friendly? A scoping review of literature - BMC Health Services Research](#)

[BMC Health Services Research](#): Study examines the literature available on youth-friendly services from the perspectives of youth, caregivers, and service providers. The main focus is to identify the characteristics of youth friendliness in substance use service settings.

[Healing Families, Helping Systems: A Trauma-Informed Practice Guide for Working with Children, Youth and Families - Ministry of Child and Family Development](#)

[Ministry of Child and Family Development](#): Guide on advancing understanding and action about trauma-informed approaches that support program and service delivery for/with children, youth and families.

[Indigenous Harm Reduction Policy Brief](#): Indigenous harm reduction is not tethered to the use of substances. Instead, Indigenous harm reduction is a way of life, embedded within traditional knowledge systems that see the spiritual world, the natural world, and humanity as inter-related.

[Indigenous Harm Reduction Principles - First Nations Health Authority](#)

[First Nations Health Authority](#): Great visual document of Indigenous Harm Reduction principles and practices that can be used as a learning diagram to host conversations about addiction and harm reduction.

STATISTICS AND REPORTS

[McCreary Centre Society – BC Adolescent Health Survey](#): BC-wide survey administered to youth in Grade 7 to 12 administered every five years since 1998. The survey gives an evidence base of youth health trends, emerging issues, and risk and protective factors for healthy development. Adapted versions of the survey are administered to youth whose experience may not be captured in the BC AHS including youth in custody, and homeless and street-involved youth, and youth in alternative education.

[Time to Listen – Youth Voices on Substance Use – Representative for Children and Youth](#): This report from the Representative for Children and Youth calls on the provincial government to develop a comprehensive system of substance use services capable of addressing the diverse needs of young people across British Columbia. The need for harm reduction to be a key component of this wrap-around system is among the recommendations.

[This is Housing First for Youth – A program model guide – Canadian Observatory on Homelessness/A Way Home Canada](#): The Housing First for Youth model is both an intervention or program model, as well as a philosophy guiding a community's response to youth homelessness.

PROFESSIONAL DEVELOPMENT

[Youth Harm Reduction 101 - Interior Health](#): PowerPoint presentation and interactive education program for youth service providers, The workshop provides a comprehensive overview of harm reduction programs and practices. Contact the Youth Harm Reduction Program for more information.

[Harm Reduction Fundamentals - CATIE](#): Excellent online course containing four units that can be accessed individually or completed together for a more comprehensive overview of harm reduction fundamentals: Unit 1: Setting the Foundation for Harm Reduction; Unit 2 Harm Reduction Principles and Practice; Unit 3 Drug Use, Health and Harm Reduction; Unit 4: Supporting Harm Reduction Service Capacity

[Youth Substance Use Education Training Pathway - Interior Health](#): Interior Health staff access only. This document aims to support building knowledge and skills for clinicians to support the safe and effective care of youth who use substances.

DIVERSITY AND INCLUSION

[YouthCO:](#) YouthCO is an organization of youth leaders within the HIV and Hep C movements. This website contains excellent resources on colonization, inclusive and destigmatizing language, sexual health, harm reduction, stigma and more.

[Qmunity - Youth Resources:](#) QMUNITY is a BC non-profit organization that works to improve queer, trans, and Two-Spirit lives. Qmunity offers youth specific resources and a Queer Terminology Glossary.

[Trans Care BC:](#) Trans Care BC supports the delivery of equitable and accessible care, surgical planning, and peer and community support for trans people across the province.

[Diversity and Inclusion:](#) Interior Health staff access only. Information for Interior Health staff on a variety of topics related to diversity and inclusion: Inclusive Language Guide, Safe and Brave Spaces, staff education opportunities and more.

OTHER RELATED TOOLKITS (INTERIOR HEALTH STAFF ACCESS ONLY)

[Harm Reduction Toolkit](#): General harm reduction information and resources for Interior Health staff.

[Naloxone Toolkit](#): Information on responding to opioid overdoses using naloxone for Interior Health Staff.

[Addressing Stigma Toolkit](#): Resources and support for Interior Health staff and physicians to understand the role that stigma towards people who use substances plays in creating barriers to care. It contains reports, courses, videos, assessment tools and practical strategies.

[Peer Engagement and Inclusion Toolkit](#): This toolkit is intended to support Interior Health managers and front line leaders with philosophical considerations and practical tools that will ensure staff feel confident to safely and meaningfully engage and include Peers.

[Child/Youth Mental Health & Substance Use \(CYMHSU\) Toolkit](#):

This toolkit is intended to support Interior Health staff and physicians in providing care to children and youth with mental health and substance use struggles through clinical resources, decision-making tools, staff education and patient and family resources.
