

Virtual Primary Care Services in Williams Lake

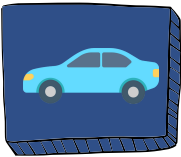

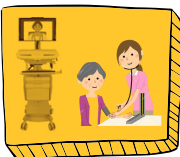

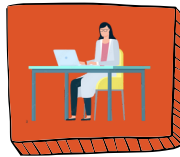

You can now access Virtual Primary Care (VPC) at the Williams Lake Primary Care Hub. This service gives patients access to care from a virtual nurse practitioner or a family physician combined with in-person support from the on-site nurse and medical office assistant.

This integrated approach of having both virtual and in-person teams collaborate closely, is aimed at enhancing the quality of care and the overall patient experience.

When to use virtual care

- Minor sprains, cuts, burns (no sutures)
- Urinary, sinus and minor skin infections
- Ear or throat pain
- Red/sore eye without injury or foreign body
- Minor musculoskeletal conditions
- Mild-moderate mental health conditions
- Sexual health screening and treatment
- Prescription refills
- Review lab and diagnostic imaging results
